CLIMATE EDUCATION

1. Climate Change Presentation + Bird Friendly Cities Activity

Discover an engaging resource for your classroom! Our online presentation dives into climate change with fun educational materials, thought-provoking questions to challenge your knowledge, and interactive activities focused on creating bird-friendly cities. Perfect for sparking curiosity and inspiring students to explore the real-world impacts of climate change! City of Windsor employees are additionally available to come deliver the presentation in person.

2. Wastewater Treatment Plant Tours

Take your students on an eye-opening journey! Our wastewater treatment plant tours offer a behind-the-scenes look at how water is cleaned and delivered to homes across the City. It's a hands-on learning experience that connects students with the science of water treatment and sustainability. Visit our website to find contact information and schedule your tour today!
