---

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Mr. Dowie:

This email acknowledges this ministry's receipt, with thanks, your circulation of the preceding Notice of Commencement for the City of Windsor's proposed Wyandotte Street East to Jarvis Avenue Extension Class EA to this Ministry.

In response, for yours and your consultant's information, as of May 1, 2018, proponents must send their Notices of Commencement and completed project information form [project information form](#) to the Region where the project is located. If your project is located in more than one ministry region, you need to submit your notices to all appropriate regions. This is in addition to the existing notification requirements in each class environmental assessments and streamlined environmental assessment process.

To submit your notice you need to do the following:

1. download and complete the project information form
2. the subject line of your email must include the project location, type of streamlined environmental assessment and project name, for example: ◦York Region, MEA Class EA, Elgin Mills Rd East (Bayview to Woodbine)
  - Durham Region, Electricity Screening Process, New Cogeneration Station
  - City of Ottawa, Waste Management Screening Process, Landfill Expansion Project
3. attach a copy of your project notice in PDF format and your completed project information form in Excel format to the email
4. send your email to the appropriate ministry regional office:
  - Central Region – [eanotification.cregion@ontario.ca](mailto:eanotification.cregion@ontario.ca)
  - Eastern Region – [eanotification.eregion@ontario.ca](mailto:eanotification.eregion@ontario.ca)
  - Northern Region – [eanotification.nregion@ontario.ca](mailto:eanotification.nregion@ontario.ca)
  - South West Region – [eanotification.swregion@ontario.ca](mailto:eanotification.swregion@ontario.ca)
  - West Central Region – [eanotification.wcregion@ontario.ca](mailto:eanotification.wcregion@ontario.ca)

When you get an opportunity, sometime in the next few days, could either you, or your consultant, please re-submit this Notice of Commencement in the manner described immediately above. The

reason I am asking you to resubmit, in accordance with the above noted protocol, is because of May 1<sup>st</sup>, 2018, this is the system the ministry has setup to keep track of all Notices received, from whom, and for what MECP Regions. Thank you in advance.

In specific response to the Notice of Commencement that MECP received, based upon the information submitted to date, the MECP have identified the following key project details with respect to the proposed undertaking:

### **Aboriginal Consultation**

The Crown has a legal duty to consult Aboriginal communities when it has knowledge, real or constructive, of the existence or potential existence of an Aboriginal or treaty right and contemplates conduct that may adversely impact that right. Before the City of Windsor may proceed with this project, the Crown must ensure that its duty to consult has been fulfilled, where such a duty is triggered. Although the duty to consult with Aboriginal peoples is a duty of the Crown, the Crown may delegate procedural aspects of consultation to project proponents while retaining oversight of the process.

The City of Windsor's proposed project may have the potential to affect Aboriginal or treaty rights protected under section 35 of Canada's *Constitution Act 1982*. Where the Crown's duty to consult is triggered in relation to the City of Windsor's proposed project, the MECP is delegating the procedural aspects of rights-based consultation to the City of Windsor through this email. The Crown intends to rely on the delegated consultation process in discharging its duty to consult and maintains the right to participate in the consultation process as it sees fit.

Based on information you have provided to date and the Crown's preliminary assessment the City of Windsor is required to consult with the following communities who have been identified as potentially affected by your proposed project:

- Kettle and Stony Point First Nation
- Aamjiwnaang First Nation
- Bkejwanong (Walpole Island First Nation)
- Chippewas of the Thames First Nation
- Caldwell First Nation
- Oneida Nation of the Thames

Please be advised that the above guidance may change as new information becomes available on project impacts and/or communities' areas of interest. If new information becomes available related to project impacts, the MECP would be willing to review the above recommendation to determine if it would change.

Steps that you may need to take in relation to Aboriginal consultation for your proposed project are outlined in the "Code of Practice for Consultation in Ontario's Environmental Assessment Process"

which can be found at the following link:

<https://www.ontario.ca/document/consultation-ontarios-environmental-assessment-process>

Additional information related to Ontario's *Environmental Assessment Act* is available online at:

[www.ontario.ca/environmentalassessments](http://www.ontario.ca/environmentalassessments)

You must contact the Director of Environmental Assessment and Permissions Branch (Director) under the following circumstances subsequent to initial discussions with the communities identified by MOECC:

- Aboriginal or treaty rights impacts are identified to you by the communities;
- You have reason to believe that your proposed project may adversely affect an Aboriginal or treaty right;
- Consultation has reached an impasse;
- A Part II Order request or elevation request is expected.

The Director can be notified either by email, mail or fax using the information provided below:

<b>Email:</b>	<a href="mailto:enviopermissions@ontario.ca">enviopermissions@ontario.ca</a> Subject: Potential Duty to Consult
<b>Fax:</b>	416-314-8452
<b>Address:</b>	Environmental Assessment and Permissions Branch 135 St. Clair Avenue West, 1 <sup>st</sup> Floor Toronto, ON, M4V 1P5

The MECP will then assess the extent of any Crown duty to consult for the circumstances and will consider whether additional steps should be taken, including what role the City of Windsor will be asked to play should additional steps and activities be required.

### **Source Water Protection**

As per the recent amendments to the Municipal Engineers Association (MEA) Class Environmental Assessment parent document approved October 2015, proponents undertaking a Municipal Class EA project must identify early in the process whether a project is occurring within a source water protection vulnerable area. This must be clearly documented in an ESR. If the project is occurring in a vulnerable area, then there may be policies in the local Source Protection Plan (SPP) that need to be addressed (requirements under the Clean Water Act). The proponent should contact and consult with the appropriate Conservation Authority/Source Protection Authority (CA/SPA) to discuss potential considerations and policies in the SPP that apply to the project.

Please include a section in the report on Source Water Protection. Specifically, it should discuss

whether or not the project is located in a vulnerable area or changes or creates new vulnerable areas and provide applicable details about the area. If located in a vulnerable area, proponents should document whether any project activities are a prescribed drinking water threat and thus pose a risk to drinking water (this should be consulted on with the appropriate CA/SPA). Where an activity poses a risk to drinking water, the proponent must document and discuss in the Project File Report/ESR how the project adheres to or has regard to applicable policies in the local SPP. If creating or changing a vulnerable area, proponents should document whether any existing uses or activities may potentially be affected by the implementation of source protection policies. This section should then be used to inform and should be reflected in other sections of the report, such as the identification of net positive/ negative effects of alternatives, mitigation measures, evaluation of alternatives etc. As a note, even if the project activities in a vulnerable area are deemed not to be a drinking water risk, there may be other policies that apply and so consultation with the local CA/SPA is important.

## **Climate Change**

The City of Windsor is strongly encouraged to include climate change in this EA. Climate change should be considered in the context of mitigation and the context of adaptation. The Ministry has recently released a guidance document to support proponents in including climate change in environmental assessments. The guide can be found online:

<https://www.ontario.ca/page/considering-climate-change-environmental-assessment-process>. It

should be noted that Climatic Features is identified in Appendix 2 of the Municipal Class EA page 2-7 (2015).

## **Part II Order Request Form**

Please note that as of July 1, 2018, a [Part II Order Request Form](#) must be used to request a Part II Order as per O. Reg. 152/18. Accordingly, please include those details when conveying information regarding the Part II Order process such as on the Notice of Completion. The following sample text would cover this requirement in the Notice of Completion for this project:

*“As of July 1, 2018, a [Part II Order Request Form](#) must be used to request a Part II Order in accordance with O. Reg. 152/18. The Part II Order Request Form is available online on the Forms Repository website (<http://www.forms.ssb.gov.on.ca/>) by searching “Part II Order” or “012-2206E” (the form ID number)”.*

When the ESR is finalized, please send the Notice of Completion and final documentation to my attention. Should you or any members of your project team have any questions regarding the material above, please contact me directly.

Yours truly,

Craig Newton

Regional Environmental Planner / Regional EA Coordinator

N8W 5K5

**RE: NOTICE OF STUDY COMMENCEMENT AND PUBLIC INFORMATION CENTRE  
CLASS ENVIRONMENTAL ASSESSMENT  
WYANDOTTE STREET EAST AND JARVIS AVENUE**

Dear Senior Environmental Officer Salustro,

The City of Windsor has initiated a Municipal Class Environmental Assessment (Class EA) to evaluate the extension of Wyandotte Street East to Jarvis Avenue to serve neighbourhood transportation and infrastructure needs for a 20-year period.

The study area is bounded by Riverside Drive (to the north), Jarvis Avenue (to the east), Little River Road (to the south) and Banwell Road (to the west), as shown on the key plan.

The study will consider the Wyandotte Street East extension for vehicular, pedestrian, transit, and bikeway connections, traffic calming, drainage, and sanitary sewage. In addition, the study will evaluate the servicing needs required to improve neighbourhood infrastructure to current municipal standards on Jarvis Avenue.

The study is being undertaken in accordance with the planning and design process for 'Schedule B' projects outlined in the Municipal Class Environmental Assessment (June 2000, as amended in 2007 and 2011) under the Ontario Environmental Assessment Act.

A key component of the study will be consultation with interested stakeholders. A Public Information Centre (PIC) is planned for this project. The PIC will be held to present and discuss the need and justification for improvements, existing study area conditions, and assessment of alternative solutions and design concepts.

Public Information Centre #1 will be hosted at:

**Thursday, October 24, 2019  
4:00pm-7:00pm**

**Riverside Sportsmen's Club  
10835 Riverside Dr E.  
Windsor, ON N8P 1A5**

Upon completion of the study, an Environmental Study Report (ESR) will be prepared and made available for a 30-day public review period. Notices will be placed in local newspapers to notify the public of further opportunities for public input.

If you wish to comment on this project, have your name added to the project mailing list, or have any questions about this project, please contact the undersigned at:

**Subject: NOTICE OF STUDY COMMENCEMENT AND PUBLIC INFORMATION CENTRE – CLASS ENVIRONMENTAL ASSESSMENT – WYANDOTTE STREET EAST AND JARVIS AVENUE**

Dear Andrew Dowie,

The Ministry of Natural Resources and Forestry (MNRF) Aylmer District received the below Notice for the proposed extension of Wyandotte Street East to Jarvis Avenue project on October 11<sup>th</sup>, 2019. Thank you for circulating this notice to our office, however, **please note that we have not completed a screening of natural heritage or other resource values for the project at this time.** Please also note that it is your responsibility to be aware of and comply with all relevant federal or provincial legislation, municipal by-laws or other agency approvals.

This response provides information to guide you in identifying and assessing natural features and resources as required by applicable policies and legislation, and engaging with MNRF Aylmer District for advice as needed.

**Natural Heritage & Endangered Species Act**

-

In order to provide the most efficient service possible, the attached Natural Heritage Information Request Guide has been developed to assist you with accessing natural heritage data and values from convenient online sources.

It remains the proponent's responsibility to complete a preliminary screening for each project, to obtain available information from multiple sources, to conduct any necessary field studies, and to consider any potential environmental impacts that may result from an activity. We wish to emphasize the need for the proponents of development activities to complete screenings prior to contacting the Ministry or other agencies for more detailed technical information and advice.

The Ministry continues to work on updating data housed by Land Information Ontario and the Natural Heritage Information Centre, and ensuring this information is accessible through online resources. Species at risk data is regularly being updated. To ensure access to reliable and up to date information, please contact the Ministry of Environment, Conservation and Parks at [SAROntario@ontario.ca](mailto:SAROntario@ontario.ca).

### **Petroleum Wells & Oil, Gas and Salt Resource Act**

-

There may be petroleum wells within the proposed project area. Please consult the Ontario Oil, Gas and Salt Resources Library website ([www.ogsrlibrary.com](http://www.ogsrlibrary.com)) for the best known data on any wells recorded by MNRF. Please reference the 'Definitions and Terminology Guide' listed in the publications on the Library website in order to better understand the well information available. Any oil and gas wells in your project area are regulated by the *Oil, Gas and Salt Resource Act*, and the supporting regulations and operating standards. If any unanticipated wells are encountered during development of the project, or if the proponent has questions regarding petroleum operations, the proponent should contact the Petroleum Operations Section at 519-873-4634.

### **Public Lands Act & Lakes and Rivers Improvement Act**

Some Municipal projects may be subject to the provisions of the *Public Lands Act* or *Lakes and Rivers Improvement Act*. Please review the information on MNRF's web pages provided below regarding when an approval is required or not. Please note that many of the authorizations issued under the *Lakes and Rivers Improvement Act* are administered by the local Conservation Authority.

- For more information about the *Public Lands Act*: <https://www.ontario.ca/page/crown-land-work-permits>
- For more information about the *Lakes and Rivers Improvement Act*: <https://www.ontario.ca/document/lakes-and-rivers-improvement-act-administrative-guide>

After reviewing the information provided, if you have not identified any of MNRF's interests stated above, there is no need to circulate any subsequent notices to our office. If you have any questions or concerns, please feel free to contact me.

Sincerely,  
Karina

---

Dear Ms. Livingstone,

Thank you for your response and for our discussion earlier today.

I acknowledge the Ministry's interest in having the Phase 2 archaeological assessment completed as part of the EA process to ensure clarity for all stakeholders.

The area identified for high archaeological potential, while within the study area, is predominantly private property and is not proposed for disturbance. In addition, financing of the Phase 2 archaeological assessment is available as part of the capital project for construction but had not been anticipated for the EA.

Our intended course of action would be to:

- 1) Complete the Phase 2 archaeological assessment relevant to the working area as part of a future capital project for construction.
- 2) Highlight the requirement for private landowners to undertake a Phase 2 archaeological assessment in case of excavation as part of the final EA document.

If deemed satisfactory, I would request approval to complete the EA absent a Stage 2 Archaeological Assessment conditional on adherence to our intended course of action and any other requirements that would facilitate this.

Best Regards,

**ANDREW DOWIE, P.Eng., FEC | ENGINEER III**

---

Good Morning Zack,

I am the project lead on the Class Environmental Assessment for the Wyandotte Street East Extension and Jarvis Avenue. I assumed this project from my predecessor, Andrew Dowie, whom you may of had previous conversations with. Just as a project update, the City held two previous public information sessions and we are now in position to present the final draft report to the City Standing Committee for Environment, Transportation and Public Safety. We certainly look forward to participating in a virtual meeting in the near future.

Also thank you for confirming the correct contact information which we will use for all future correspondence. We will also upload the project to the web portal link you provided.

Please feel free to contact me anytime!

Best Regards,  
Paul

**PAUL MOURAD, P.Eng.**

Good morning:

My role is only to send out notifications of the request of the report author. I will forward your comments to them.

Thank you,

Kelly

**Subject:** Re: Notice of Standing Committee Meeting - Item 8.6 - Class Environmental Assessment for the Wyandotte Street East Extension and Jarvis Avenue - Ward 7

Good afternoon Kelly,

Please update your contact information for engagement requests for Caldwell First Nation - your original notice went to our Finance Department. You can email this address, as well as [ecd@caldwellfirstnation.ca](mailto:ecd@caldwellfirstnation.ca), to contact our Department. We handle and screen incoming requests as they emerge. Additionally, please upload your project to [consultwithcaldwell.ca](http://consultwithcaldwell.ca), our current web portal, where you can also find our Protocols of Consultation.

Please note that we do not attend Public Information Sessions and the like, as we focus on government-to-government relationships as a rightsholding community, and Caldwell is entitled to individual engagement whenever there is a potential for impact to rights. We are usually keen to participate in EA reviews and comments wherever Caldwell citizens live in the Traditional Territory, including Windsor. The City has so far largely refused to fund our participation and accommodate the Nation, so I would like to have a conversation with you about your consultation budget for this project and others.

Note that I've CC'd our Land Guardian, Jenna Maidment, who will be interested in reviewing your project and any effects it might have that would concern our citizens. Jenna will facilitate a virtual meeting in the near future.

**Best,**

**Zack Hamm**

**RE: Item 8.6 - Class Environmental Assessment for the Wyandotte Street East Extension and Jarvis Avenue - Ward 7**

[Meeting Documents\\_Environment, Transportation & Public Safety\\_ETP - 9\\_2023 \(citywindsor.ca\)](#)

The above-referenced report has been scheduled for consideration at the Wednesday, November 29, 2023, Environment & Transportation Standing Committee meeting.

Please use the web link provided in this email to reference the agenda, selecting Item No. 8.6 to view the report.

To view the Class EA Environmental Study Report please go to [www.WindsorEAs.ca](http://www.WindsorEAs.ca)

Should you wish **to be listed as a delegation** and address members of the Standing Committee on this matter or provide a written submission, please contact [clerks@citywindsor.ca](mailto:clerks@citywindsor.ca) by 12:00 noon on Friday prior to the meeting **or** register online at <https://www.citywindsor.ca/EServices/Pages/Delegation-Request.aspx> **or** call 519-255-6432 and provide the following information:

- your title/affiliation (area resident, applicant, etc.)
- if will you be addressing Council on this matter (maximum five minutes) **or** wish to be listed as available for questions?
- will you attend in person or via Zoom?

If you want to view the meeting only without participating, please visit <https://csg001-harmony.sliq.net/00310/Harmony/en/View/UpcomingEvents> on the day of the meeting at 4:30 p.m.

Please note that written submissions become part of the public record. Should you wish your submission **not** become part of the public record, please let me know as soon as possible.

Thank you,

**Kelly Stuart | Council Agenda Coordinator**
